The Lady Jane Grey painting is unravelled in Plymouth, after being in storage for a century

Daniel Dayment

Photographer | Plymouth

Daniel has had a passion for picture making since his childhood, that passion spurred him on to complete a degree in Photography at Arts University Plymouth and land a position at SWNS shortly after. Daniel is an eager photographer who works best with people, he's a thoughtful practitioner, always looking for ways to make his subject feel at ease — he once lived in a van and travelled across the UK so he could make a project with people living off the grid.
